

# PRODUCT PROFILE

## P903074 DIESEL FUEL KIT CHASSIS MOUNT

For Diesel Platforms with Flow Rates up to 379LPH

### FEATURES & BENEFITS:

- Ideal for Light to Medium Trucks
- Includes additional filter element – keep one in the vehicle spare!
- Supports fuel flow range up to 100 gph / 379 lph
- Water Separating Filter and Drain Bowl

Contaminated fuel can lead to vehicle downtime and costly repairs, especially to expensive common rail systems and components.

Modern engines are increasingly requiring better fuel filtration technology to ensure you are delivering the cleanest fuel to your vehicle's fuel system.

Donaldson's Diesel Fuel Filtration Kit Chassis Mount can be used in conjunction with your vehicles current filtration system as a pre-filter to provide additional protection for your fuel system. It can be used for any application with a fuel pump delivery rate of up to 379 litres per hour.

### CONTENTS & SPECIFICATIONS:

Product Image	Part Number	QTY	Description	Specifications
	P562261	1	Head Assembly	1/2" NPT Ports Working Pressure 100psi (6.8bar)
	P553207	2	Spin-On Filter	Dimensions: OD 93mm, Length 219mm Efficiency: 3µm@β100 (99% @ 3 micron) Water Separation Properties
	P569758	1	Drain Bowl	Dimensions: OD 80mm, Length 55mm
	ENBRSTBBTM-0608	2	Straight Fitting	3/8" / 10mm Tail x 1/2"-14 NPT Thread, Straight

**NOTE:** These items are also available to purchase separately. Fuel hose, clamps and connectors are not included.
